

# CL-170

## 2-Way Architectural Speaker Series

### Key Features:

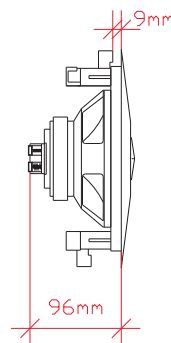

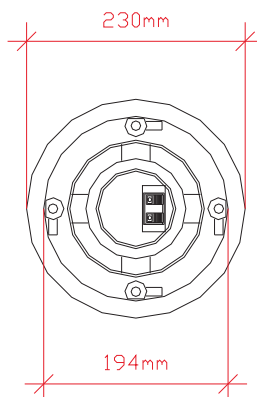

- ▶ Dressed as a recessed lighting fixture, the CL170 in-ceiling “pot-light” is a terrific two-way speaker system that replaces in-wall speakers in non-ideal rooms.
- ▶ High power handling capability: 45 watts continuous pink noise
- ▶ Unlike the ceiling speakers of yesteryear, the CL-170 is a high-tech marvel in miniature, with a 150mm (6 inch) woofer/midrange, an advanced dome tweeter, and a sophisticated crossover.
- ▶ The excellent sound quality and wide dispersion provided by the CL170 allow it to be used in ceilings up to 6 m (18 feet) high
- ▶ Suitable for use in small and medium size conference rooms

### Specifications:

system:

Frequency Range:	55 Hz - 20 kHz
